1. Objective of the Youth Committee

According to the article 10 (j) of the Regulation 2019/517 EURid shall promote the objectives of the Union in the field of internet governance, inter alia by participating in international forums.

The Committee is an advisory body that develops advice to inject energy, new ideas, bring in youth's perspective to EURid's approach to Internet Governance actions that could help

EURid to consider improvements in .eu policies and procedures. Further more they bring in advice to relevant EURid's projects and activities (such as the online communication) and act as EURid's ambassadors on various occasions.

2. Membership

The Youth Committee consists of up to five members who act in their personal capacity and agree to abide by the terms and conditions of the Committee as set in the Committee Charter.

EURid selects the members of the Committee on the basis of their response to EURid's call for application. EURid selects members on the basis of their:

- Experience and insights in online trends including social media, online marketing, online communication
- Experience and insights in DNS and Internet governance is a plus

In making the selection, EURid is mindful of diversity of the Youth Committee team.

Their term is 2 years, renewable once.

3. Role and responsibilities

The Committee supports EURid objectives and provides non-binding advice to EURid on the following matters:

- Upcoming internet governance events.
- Annual industry engagements strategy.
- Promotion of the .eu TLD (examples might include social media posts, educational emails to undergraduate and postgraduate university students).
- Review and/or refinement of .eu policies and procedures, and marketing activities.
- Active participation including attendance at appropriate events.
- Review/propose cooperation with international or regional youth organizations.
- Participation in/organization of events/webinars targeting youth people related to .eu.
- Participation in/organization of hackathons related to .eu important matters.

Every new member is offered a training about the basics of DNS and Internet governance by EURid according to her or his needs.

4. Working methodology

EURid appoints a liaison to the Committee. The Committee must select a coordinator, drawn from the Committee's members. The coordinator should facilitate the communication exchange with EURid and the EURid liaison, and is in charge of producing the yearly activity report.

The Committee shall meet quarterly: one in-person meeting complemented by 2-3 online meetings. Should in-person meetings take place, EURid provides the travel support according to the rules of the most recent version of EURid Travel Policy. Every Committee's document shall be drafted in a transparent and shared way using appropriate collaborative tools to facilitate cooperation between members.
