

Do you want to be part of the dynamic and multicultural team behind the .eu top level domain? Then send your CV today!

EURid is the not-for-profit organisation appointed by the European Commission to operate the .eu top- level domain. The .eu domain ranks among the ten largest top- level domains in the world, connecting 500 million people in 31 countries to one Internet identity. Almost 4 million .eu names have been registered since the domain opened for registration in 2005.

EURid is headquartered in Belgium (Diegem), and has satellite offices in Sweden, the Czech Republic and Italy. Our young organisation employs people from all over the European Union and is the perfect arena for self-motivated professionals looking to be challenged and stimulated in their working environment.

For our office in Diegem we are currently looking for a:

DevOps Engineer (m/f)

Description:

As a DevOps Engineer, you will be responsible for the design, implementation and maintenance of the IT systems of EURid and work in close collaboration with the Development teams.

Your main tasks and responsibilities will include:

- Providing technical advice and guidance to project team members and interdepartmental projects
- Being a key player in the design, implementation and handover of production services
- Maintaining the network and production environment
- Participating in an on-call rotation

Profile:

- You have a bachelor degree in computer science or equivalent by experience
- Strong experience with the following is required :
 - Unix/Linux system administration (Redhat-like OS)
 - Configuration Management (Ansible, Puppet, Chef)

- Deployment automation, OS Provisioning, rpm/repo management, patch management
 - Scripting skills (Python, Bash)
- Experience in the following fields would be an advantage :
 - Work experience as a systems architect
 - Cloud services (AWS, EC2,..)
 - RDBMS (PostgreSQL, MySQL) - NoSQL (ElasticSearch, Redis, MongoDB...)
 - Web services (Apache, nginx, Tomcat,...)
 - CD and CI (Jenkins, Bamboo...)
 - DNS & DNSSEC
- Excellent troubleshooting and technical problem resolution skills
- Demonstrate energy, effort and enthusiasm for delivery and results
- Good time management coupled with excellent communication skills
- Strong sense of ownership in the timely resolution of issues and completion of project tasks
- Seek continuous improvement
- Team-worker, but able to work independently
- You are fluent in English and either Dutch or French

What we offer:

EURid offers you a challenging job in a in a highly technical and international environment. You will be part of a young and dynamic team.
