

Do you want to be part of the dynamic and multicultural team behind the .eu and .eu domain top-level domains? Then send us your CV today!

EURid is the not-for-profit organization appointed by the European Commission to operate the .eu and .eu domain top-level domains. The .eu domain ranks among the ten largest top-level domains in the world, connecting 500 million people in 31 countries to one Internet identity.

EURid is headquartered in Belgium (Diegem), and has satellite offices in Sweden, the Czech Republic and Italy. Our young organization employs people from all over the European Union and is the perfect arena for self-motivated professionals looking to be challenged and stimulated in their working environment.

For our office in Diegem, we are currently looking for a:

Senior Java Developer

Description:

As a Senior Java Developer, you will apply your in-depth knowledge of software design and java frameworks to deliver quality software applications from architecture to implementation.

You will work with a **cutting-edge development stack**.

Your main tasks and responsibilities will include:

- Analysis of business requirements
- Design and maintain the platform architecture
- Day to day programming in Java
- Testing and bug fixing
- Code review and maintenance

Profile:

- You have a university degree in computer science or equivalent by experience
- You have relevant work experience of more than 8 years as a developer
- You have an in-depth knowledge of Java technology
- You have experience in design and architecture of complex systems
- You have experience in Agile methodologies
- You are an experienced Linux user
- You are a team-worker, but able to work independently
- You are fluent in English and either Dutch or French
