

Do you want to be part of the dynamic and multicultural team behind the .eu top level domain? Then send your CV today!

EURid is the not-for-profit organisation appointed by the European Commission to operate the .eu and .europa top-level domains. The .eu domain ranks among the ten largest top-level domains in the world, connecting 500 million people in 31 countries to one Internet identity. Almost 4 million .eu names have been registered since the domain opened for registration in 2005.

EURid is headquartered in Belgium (Diegem), and has satellite offices in Sweden, the Czech Republic and Italy. Our young organisation employs people from all over the European Union and is the perfect arena for self-motivated professionals looking to be challenged and stimulated in their working environment.

For our office in Diegem we are currently looking for a:

Senior System Engineer (m/f)

Description:

As Senior System Engineer, you will be responsible for the design, implementation and maintenance of EURid's IT systems and networks.

Your main tasks and responsibilities will include:

- Provide technical advice and guidance to project team members and on interdepartmental projects
- Be a key player in the design, implementation and handover of production services
- Maintain the network and production environment
- Assist in the creation and maintenance of operational processes and procedures
- Implement security plans and improve the robustness of the systems
- Participate in an on-call rotation

Profile:

- You have a bachelor degree in computer science or equivalent by experience
- You have a relevant work experience of at least 6 years as a network or system engineer
- Work experience as a systems architect is a plus
- Strong experience of Linux systems (Redhat-like) is required
- Strong scripting skills (Python, Bash, Perl)
- Strong knowledge of DNS is required
- Good knowledge of network protocols and infrastructure
- Hands-on experience with Automation and Configuration Management software - Devops minded
- Experience with Big Data technologies is a plus
- Excellent troubleshooting and technical problem resolution skills
- Demonstrate energy, effort and enthusiasm for delivery and results
- Good time management coupled with excellent communication skills
- Strong sense of ownership in the timely resolution of issues and completion of project tasks
- Seek continuous improvement
- Team-worker, but able to work independently
- You are fluent in English and either Dutch or French

What we offer:

EURid offers you a challenging job in a in a highly technical and international environment. You will be part of a young and dynamic team.
