# Q3 EURid's Quarterly Update 2024

In Q3 2024, we were recertified under the **EU Eco-Management and Audit Scheme (EMAS)**, reinforcing our commitment to environmental responsibility. Simultaneously, we continued working to comply with the **Belgian transposition of the NIS2 Directive**, aimed at enhancing security and transparency in domain name management.

As part of this commitment, we launched the **EURidity system** in May 2024, which automates the identity verification process for domain name holders. This system plays a critical role in ensuring online security by detecting suspicious domain names. Between January and July, **33 987 domain names were flagged as suspicious**, compared to 18 763 during the same period last year.
Flagged suspicious domain names
