

Do you want to be part of the dynamic and multicultural team behind the .eu top level domain? Then send your CV today!

EURid is the not-for-profit organization appointed by the European Commission to operate the .eu and .europa top-level domains. The .eu domain ranks among the ten largest top-level domains in the world, connecting 500 million people in 31 countries to one Internet identity. Almost 4 million .eu names have been registered since the domain opened for registration in 2005.

EURid is headquartered in Belgium (Diegem), and has satellite offices in Sweden, the Czech Republic and Italy. Our young organization employs people from all over the European Union and is the perfect arena for self-motivated professionals looking to be challenged and stimulated in their working environment.

For our office in Diegem we are currently looking for a:

Senior Java Developer (m/f)

Description:

As a Senior Java Developer, you will apply your in-depth knowledge of software design and java frameworks to deliver quality software applications from architecture to implementation.

Your main tasks and responsibilities will include:

- Analysis of business requirements
- Design and maintain the platform architecture
- Day to day programming in Java
- Development of APIs and data modules
- Testing and bug fixing
- Code review and maintenance

Profile:

- You have a university degree in computer science or equivalent by experience
- You have relevant work experience of more than 8 years as a developer
- You have an in-depth knowledge of Java technology
- You have experience in design and architecture of complex systems
- You have experience in Agile methodologies

- You are an experienced Linux user
- You are a team-worker, but able to work independently
- You are fluent in English and either Dutch or French

Technical skills:

- Expert knowledge of the following technologies
 - Latest version of the Spring framework (Spring Core, Spring MVC, Spring Security, Spring AOP)
 - Hibernate/JPA
 - SQL
 - Message Queues (RabbitMQ, Apache ActiveMQ, ...)
 - REST api design
 - Maven
 - JUnit
- Knowledge of the following technologies is a plus
 - Spring batch, Spring integration
 - Continuous Integration
 - Atlassian tools (JIRA, Confluence, Bamboo, ...)
 - Python
 - Cucumber
 - Git
 - Gradle

What we offer:

EURid offers you a challenging job in a young, dynamic and international environment.
